

Tag, Evidence, Cite, Explain

Step 1- Words to Help You Cite Evidence:

- ★ According to (the author)
- ★ (the author) claims
- ★ (the author) suggests
- ★ (the author) states
- ★ (the author) writes
- ★ (the author) reports
- ★ (the author) describes
- ★ (the author) implies
- ★ (the author) explains
- ★ (the author) argues
- ★ (the author) declares
- ★ (the author) reveals
- ★ (the author) remarks

Step 2- Quote/Paraphrase

Direct Quote- Use quotation marks and directly state as it was in the text.

Paraphrase- no quotations needed

Step 3- In Text Citation (we are going to cover this more next week)

Make sure you know what article and where in the article the quote is located

Step 4- Words to Help You Explain Why Your Evidence is Relevant:

- ★ (the author) says this because
- ★ This proves that
- ★ This exemplifies how
- ★ This confirms
- ★ This demonstrates
- ★ This describes
- ★ This explains
- ★ This illustrates
- ★ This implies
- ★ This suggests

Examples

- Direct Quote- **Peta's article**, Animals are Not Ours, **suggests**, "Avoid all circuses that use animals. Talk to friends and family members, particularly those with young children who might be especially inclined to go" (Peta 3). **This illustrates** the importance of not supporting any circus and getting the word out.
- Paraphrase- **Peta's article**, Animals are Not Ours, **suggests**, families with young children usually attend circuses. People should be letting others know to not attend any with animal use. **This illustrates** the importance of not supporting any circus and getting the word out.
